Ravichandran

Network Security Engineer

with 4+ years of experience securing enterprise infrastructure through firewall administration, VPN technologies, SIEM monitoring, incident response, and vulnerability management. Skilled in FortiGate, Check Point, Palo Alto, Cisco ASA, Splunk, ServiceNow, ITIL, IPSec VPN, SSL VPN, and network troubleshooting. Proven ability to reduce MTTR by 25%, maintain 99.9% infrastructure availability, and improve enterprise security posture through proactive monitoring and automation.

📁 Professional Experience

Tata Consultancy Services (TCS)

Assistant System Engineer – Network Security

05/2022 – Present | Chennai

- Administered enterprise **FortiGate and Check Point** firewall infrastructure, managing firewall policies, NAT, security rules, VPN connectivity, and high-availability clusters while maintaining 99.9% service availability.
- Configured, monitored, and optimized **IPSec and SSL VPN** solutions for secure remote access and site-to-site connectivity.
- Investigated security incidents using **Splunk SIEM** through log analysis, correlation searches, threat detection, and incident triage, reducing **MTTR** by 25%.
- Performed firewall policy reviews, rule-base optimization, and change management following **ITIL** best practices.
- Conducted vulnerability assessments, coordinated remediation activities, and tracked issues using **ServiceNow**.
- Authored and maintained security documentation, including **SOPs**, network diagrams, and post-incident reports for audit compliance.
- Collaborated with infrastructure, cloud, and application teams to implement enterprise **network security policies**.
- Provided **L1/L2 NOC/SOC support**, performing incident triage, escalation management, and root cause analysis for P1/P2 incidents.

📄 Certificates

- Fortinet NSE 4 – Network Security Professional
- Cyber Resilience - ManageEngine User Academy
- Cisco Networking & Security Fundamentals - Cisco
- CompTIA Security+ – (Pursuing)
- AWS Certified Cloud Practitioner - Amazon
- ITIL Foundation Certificate in IT Service Management

🎓 Education

Bachelor of Engineering – Mechanical Engineering Anna University, Chennai, India

06/2017 – 05/2021 | Erode

Projects

Enterprise Firewall Migration Cisco to CheckPoint Firewall

- Planned and executed firewall policy migration between Cisco and Check Point environments.
- Validated security rules and VPN configurations.
- Performed post-migration testing with zero production downtime.

Skills

Firewall Platforms

- FortiGate
- Checkpoint
- Palo Alto
- Cisco ASA

Network Protocols

- Routing and Switching
- SD-WAN / VLAN
- DNS / DHCP
- NAT

Monitoring Tools

- Splunk Enterprise
- SolarWinds Network Performance Monitor
- Wireshark
- FortiCloud Monitor

Core Competencies

- Network Security
- Firewall Administration
- Threat Analysis
- Incident Response
- Vulnerability Management
- Firewall Policy Review
- ITIL
- Network Troubleshooting
- SOC Operations
- NOC Operations

VPN Technologies

- IPSec Site-to-Site
- SSL VPN, FortiClient
- Cisco AnyConnect

SD-WAN / SASE

- Cisco Meraki
- FortiGate SD-WAN

ITSM

- ServiceNow
- Confluence
- JIRA

☆ KEY ACHIEVEMENTS

- Reduced Mean Time to Resolution (MTTR) by 25% through proactive Splunk alert tuning, workflow optimization, and standardized incident response procedures.
- Efficiently managed firewall change implementation requests with 100% SLA compliance.
- Optimized VPN user provisioning workflow, cutting onboarding time for remote users by 40%.
- Recognized by TCS project lead for exceptional technical documentation and knowledge transfer to teammates
